#### **Key External Factors**

#### Funding:

Many of our strategic goals and objectives assume on-going and sometimes significant additional levels of State legislative appropriations. Recent funding for Career Technical Education has allowed CEI to respond to industry needs in a timely and efficient manner. The enrollment and graduation rates in many of the Career Technical Programs have limited facilities and seats available to students with waiting lists. The recent State funding has allowed us to hire new instructors and reduce many of the waiting lists. CEI was funded as a community college, which allows us to offer the Associates of Arts and the Associates of Science Degrees for the first time in fall 2018. We are projecting growing enrollment over the next few years due to this funding. We are actively engaged in the "go on" rate in Idaho and working with the local high schools to recruit students.

#### **Evaluation Process**

CEI is in the process of implanting a more thorough process for evaluation of its measures. The institution has adopted a cycle of continuous improvement known as the Mission Fulfillment process. The Mission Fulfillment Process is a Plan-Do-Study-Act process, which is how CEI implements, measures, adjusts, and informs budget proposals. There are four main areas of the process. Planning is the section of determining how new initiatives can be implemented. Do is the implementation and step for enacting the changes derived from the previous cycle. Study is one of the most intricate steps, it is called the Mission Fulfillment Report (MFR) cycle which encompasses the gathering and assessment of data from all institutional levels. Finally, the action step is where budgets, informed from the assessment, allows for allocations to improve measures. Figure 1: Mission Fulfillment Process is a depiction of the process flow.

#### **Red Tape Reduction Act**

The State Board of Education, through the Office of the State Board of Education, runs all administrative rules governing the postsecondary institutions and special and health programs. The State Board of Education strategic plan outlines the reduction efforts for the public education system.

# **CEI IMPROVEMENT CYCLE**

# Mission Fulfillment Process

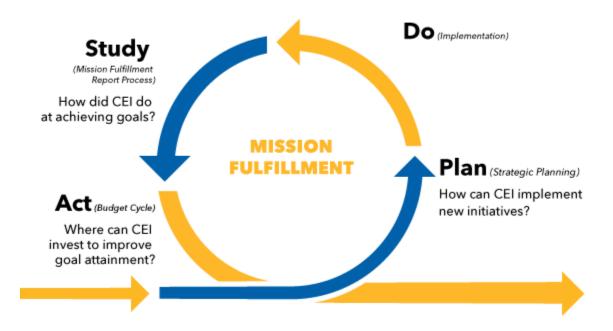

Figure 1: Mission Fulfillment Process

There are four main areas that make up the Mission Fulfillment Report (MFR). The gathering of information, assessment, adjustment, and implementation. The goal of the process is to collect data, to measure it against the benchmarks, and to present the findings for consideration of improvements. The cycle connects the employees to administration, to the trustees, and back to the employees. The cycle also identifies areas were improvements can be made to improve the measures through the allocation of resources.

<sup>&</sup>lt;sup>1</sup>N/A - Has been used to indicate areas were reports or data have not finalized collection for the year in question or that are otherwise unavailable at the time this report was produced.

<sup>&</sup>lt;sup>2</sup>In FY 2017 CEI transitioned the administration of the Noel Levitz survey from a fall to spring term resulting in the laps of reportable date for that period.

<sup>&</sup>lt;sup>3</sup>Currently CEI is implementing measures and collecting data, not all measures are reportable at this time.

<sup>&</sup>lt;sup>6</sup>Years in which data are reported line up with a corresponding starting cohort for example FY2016 is a report of the Fall 2013 cohort, and FY2017 is a report of the Fall 2014 cohort and so forth for other reporting years.
